**DIRECTORY OF LABOR ORGANIZATIONS  
IN MONTANA**

Cooperation of labor representatives with offices of the state employment service division of this commission makes possible the issuance of this directory of key officials in labor unions and related organizations in Montana.

Distribution is made as a public service to principal officers of labor unions, employer organizations, libraries, public officials, the press and radio, and on request to any individual.

Employment service and unemployment insurance facilities of the commission are dedicated to all elements of the public—union members, non-union workers, employers, rural and urban residents, and individuals—on a basis of equality and impartiality and as a matter of right under the laws of state and nation.

See "Appendix" for official names of Unions listed.
